## How to read this document:

- Text in **gray** will remain compliance criteria but will not be automatically assessed for one of the following reasons:
  - It is an implicit criterion designed to facilitate CAF procedures relating to monitoring ongoing compliance. It is not verified per se by either CAF or an external auditor, but compliance with the overarching set of labour standards depends on it.
  - Has been replaced with another audit procedure
  - The assessment will be triggered by another circumstance (e.g. worker engagement)

## CAF Standard 2. Responsible Contracting

This standard seeks to ensure that contract cleaning services are procured, delivered and managed transparently and responsibly.

In order to promote transparent and ethical pricing of cleaning contracts, CAF has determined benchmarks for productivity rates and on-costs. This is to determine whether the contract is sufficient to enable cleaners (including employees of any subcontractors) to work within safe productivity levels and be paid at least minimum wages and entitlements.

Subcontracting, where undertaken, is to be conducted transparently and responsibly.
